

TekWax®

BY BRITISH MILLERAIN

A NEW ERA IN WAX FINISHING

TekWax® is a new collection of dry waxed fabrics with unique characteristics and enhanced weather resistant properties. Developed by British Millerain, the home of waxed cotton.

Finish	Description	Machine washable?	Product names	Base cloth	Finished weight (g/m2)
Alloy	An ultra dry waxed cotton, with a clean appearance and low cracking /marking with wear. A pre-treatment prior to waxing gives the fabric a soft handle, better drape and enhanced weather resistant properties	No	Alloy 4 Alloy 5 Alloy 6	100% cotton	180 270
Cobalt	A high concentration of hard wax gives Cobalt fabric a stiffened handle and unique surface patina when handled and worn	No	Cobalt 100RS	100% cotton	135
Evolution	A unique machine washable wax that can also be applied to nylon or polyester. After washing, Evolution wax can be tumbled and/or cool ironed to regain original appearance	Yes	Evolution 100RS Evolution 6 Evolution 8 Evolution 500D Evolution 1000D Evolution 125T	100% cotton 100% cotton 100% cotton 100% Nylon 100% cotton 100% Polyester	135 270 340 280 375 170
Fusion	A drier version of traditional wax; a blend of hard and soft wax gives the fabric more body and enhanced spray rating	No	Fusion 100RS Fusion 6	100% cotton 100% cotton	135 260
