

# TekWax®

BY BRITISH MILLERAIN

## A NEW ERA IN WAX FINISHING

***TekWax® is a new collection of dry waxed fabrics with unique characteristics and enhanced weather resistant properties. Developed by British Millerain, the home of waxed cotton.***

Finish	Description	Machine washable?	Products
Alloy	An ultra dry waxed cotton, with a clean appearance and low cracking /marking with wear. A pre-treatment prior to waxing gives the fabric a soft handle, better drape and enhanced weather resistant properties	No	Alloy 4 Alloy 5 Alloy 6
Cobalt	A high concentration of hard wax gives Cobalt fabric a stiffened handle and unique surface patina when handled and worn	No	Cobalt 100RS
Evolution	A unique machine washable wax that can also be applied to nylon or polyester. After washing, Evolution wax can be tumbled and/or cool ironed to regain original appearance	Yes	Evolution 100RS Evolution 6 Evolution 8 Evolution 500D Evolution 1000D Evolution 125T
Fusion	A drier version of traditional wax; a blend of hard and soft wax gives the fabric more body and enhanced spray rating	No	Fusion 100RS Fusion 6
